

# CUSTOM FACEPLATES

To help Installer's Choice meet your precise requirements for your custom made faceplate, please choose one of the options below:

1) You can ship your equipment to Installer's Choice to be measured to ensure an exact fit for each custom faceplate. In some cases, your equipment will have features that require the faceplate to be fitted as opposed to framed. We will ship your equipment back to you in the same carton it was received and in the same condition it was received.
